

LETTER OF RECOMMENDATION

I am very much pleased to recommend Mr. [REDACTED] as a prospective student for graduate program at your esteemed institution . I knew him for the past 4 years as an undergraduate student of Electronics& Communication Engineering at this college and I had many opportunities to observe him from close quarters as his instructor for the courses "RADAR SYSTEMS" & "MICROWAVE ENGINEERING". Mr. [REDACTED] is quite ambitious and career driven. He works hard to achieve his goals and is committed to his work. He is emotionally matured, confident and good natured.

He is very interactive in the class and endorses the discussions with cogency and natural ease. This combined by his pragmatic approach has always kept him head of his peers. Blessed with eminent analytical abilities and an acute sense of reasoning he can analyze enigmatic problems exceptionally well and can come out with good formulations. He is a student with self reliance and good levels of self-confidence.

Mr [REDACTED] 'S deep understanding of the subject, as well as his quest for knowledge constantly impressed me. He has repeatedly proved his conceptual ability and effective outlook in the classroom debates with his novel problem solving methods. To add to this feature, his latest seminar on the 'STECANOGRAPHY' is appreciative. He has flair for keeping himself abreast with the latest developments in technology. He has an aptitude for research. He has good command over English in both written & oral forms.

Keeping in view all the above stated facts I would place him among the top 20 % of his class students. With his self confidence and intellectual ability, he will excel graduate studies and I recommend him to be awarded an assistantship to enable him pursue his further studies.

I wish him all the best in his future endeavors.

Sincerely,

[REDACTED]
