

Letter of Recommendation from Professor & Head ECE Dept. (Amity University Gurgaon)

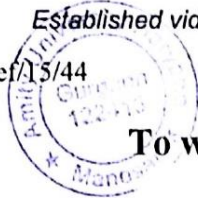

AMITY UNIVERSITY

GURGAON

Established vide Government of Haryana Act No.10 of 2010

Ref. No:-AUH/ASET/Ref/15/44

December 24, 2015

To whom it may concern

I Dr Priti Singh, Head of Department at Electronics and Communication Engineering in Amity School of Engineering and Technology, hereby completely substantiate the candidature of **Mr. Pavleen Singh Bali** in applying for admission to the Master's program at your prestige institute of learning.

My assessment of Pavleen is inclined to assist the evaluation process and thus comprises of vital information relevant to his academic term under my guidance. During his Bachelor's Program, I have taught him "Signal and System" and "Digital Signal Processing" in 3rd and 6th semester, respectively. I also took his practical sessions of "Telecommunication Networking" in 5th semester. He possesses very good mathematical and analytical skills. He could grasp the concepts very easily which was evident during the lectures and the tutorial sessions.

Pavleen has propensity for inter-disciplinary academics. Along with studying the modules of his curriculum, he thrived to read widely and went deep into the ramifications of the theories and concepts, attesting his industrious approach towards his academics. He is an exceptionally good organizer and team leader which were portrayed during his tenure as the organizer of various excursions and events at university. He is very good at literary too which I got to know when I saw his endeavors as the co-editor of the college newsletter.

Moreover Pavleen is doing his graduation under 100% scholarship award in Amity University due to his excellence in the field of academics with the **CGPA of 9.04/10**. Pavleen maintains a good rapport with the faculty and staff of our department. I find him very zestful, ambitious and driven by a passion for quality. His assignments are manifestation to these attributes. Being responsible for the assessment of the final year Electronics and Communication Engineering students for the year 2014-2015, I can confidently say that Pavleen's work on his final year major project on "**Intelligent Traffic Monitoring System**", under my guidance shows his out of the box thinking and keen eye for detail in innovation and technology. A national patent has been filed for the above mentioned innovation. In addition to this Pavleen has joined Amity University as a **Research Associate** in E & C Engg. Dept. for a period of 1 year.

I am sure that Mr. Pavleen Singh Bali will meet the requirements of your stringent selection process and make your institution proud. I will extend all possible assistance in relation to Mr. Pavleen Singh Bali's application and may be contacted at psingh@ggn.amity.edu.

With regards,

Priti Singh
Prof. (Dr.) Priti Singh
